bringing your ideas to life

NCFE Level Three - Interactive Media

This course is unique, practical and beneficial as our professional animators deliver :

- Training in industry techniques and software
- Flexible guided learning across schools, colleges and City Learning Centres.
- Insight into the industry from CRB checked animators.

Learn about the Design industry

Step by step guidance allowing students to learn :

- The planning and production process
- How to develop interactive solutions to design problems

Apply Creative skills to a design brief

Allowing students to apply imagination through:

- Utilising creative design software
- Incorporating technology, animation and video clips into an interactive media brief.

Build a portfolio for employment

Helping you to learn how to apply your skills and techniques, you will :

- Learn the skills required for certain job roles
- Build an industry ready portfolio
