bringing your ideas to life

## NOCN Level One - 3D Animation

This course is unique in its delivery as it was actually written by one of our team at WAK Educate. We offer:

- **Bespoke, flexible training in animation and design**
- **Fun, creative and interactive learning in animation software**
- **Insight into the industry from CRB checked animators.**

### Create your own 3D Models

Guided training in animation software will help you to:

- **Create and develop a design for a character or object**
- **Learn 3D sculpting and modelling techniques**
- **Become comfortable with the software interface**

### Develop your object and scene

We will show you how to bring your characters to life:

- **Learn how to colour and texture objects**
- **Apply lighting to a scene**

### Create an animated sequence

Begin to add motion to your scene:

- **Apply key-frame animation to your character**
- **Render out your scene into a playable video**
